Subject: BOE visit
Date: Thursday, March 28, 2019 8:59:31 AM

Susan

You are correct that everyone from NDEQ will be onSite at the plant today starting at 10 am along with David Heansly from EPA -and Lance and the engineer SSC. We were previously offering the call in as just an option —particularly for EPA's benefit if there was a presentation. However, I now understand all day will be spent outside in the plant.

Yesterday BOE successfully completed the installation of the bypass extension and trucked around 250 tons of sludge to the approved Iowa farms for land-application.

Please let me know if you have any further questions.

Best, Bill

Bill

I got a call from Kevin Stoner this morning, and he was concerned about the conference call you had set up for this morning at 10 am. It is my understanding from yesterday's phone call that all of these people will actually be at Big Ox this morning to tour the plant. So I assume that there will in fact be no telephone call this morning. If that is incorrect, please let me know.

Thanks,
Susan
